### MUSICWEB INTERNATIONAL Recordings Of The Year 2016

This is the thirteenth year that Musicweb International has asked its reviewing team to nominate their recordings of the year. Reviewers are not restricted to discs they had reviewed, but the choices must have been reviewed on MWI in the last 12 months (December 2015-November 2016).

The 138 selections have come from 26 members of the team and 78 different labels, the choices this year reflecting as usual, the great diversity of music and sources.

Everything about the production spells quality. The CDs, DVDs and book are housed in a large, beautifully produced deluxe presentation box. For pianophiles it will prove a valuable and worthwhile investment.

I admire musicians who produce well-thought out and imaginative programmes, and this is
